Machine Name : Vertical Machining Center

Brand : Makino

Machine Model : V56

Stock No. : 69597

Ex-factory Date : 2014

Main Technical Parameters:

CNC System: Professional 5
three-axis travel: 900 × 500 × 450 mm
Worktable size: 1050 × 550mm
spindle: HSK-F63
Spindle speed: 20,000 rpm
Tool Aligner: BLUMg Laser Tool aligner aligner Aligner
glass scale: Full-axis glass scale
Drive mode per axis: lead screw
Chip removal method: Chain chip removal
Distance from spindle to Worktable surface: 590 mm
spindle drive method: Electric spindle
tools magazine form: Disc-type tools magazine
Tool holder model: BBT40
magazine capacity: 25 pieces
machine tool structure: Gantry type
Probe: Marposs probe
Overall dimensions: 2500 × 3300 × 2900 mm
guideway method: two rigid guideways and one linear guideway
Accessories: Oil-cooled machine, Marposs probe, chip conveyor
