

**Machine Name : 5 axes Turn mill
machining Centere center**

Brand : DMG

Machine Model : Ctx gamma 2000TC

Stock No. : 92334

Ex-factory Date : 2011

Main Technical Parameters:

three-axis travel: 800*420*2050mm

Worktable size: 2000*700mm

machining length: 2050, with center support

Rotation diameter: 700mm

Product features:

1. Built-in spindle drive, torque up to 4,000 Nm, higher cutting performance
 2. Ultra-compact turning/milling spindle with torque up to 220 Nm meets the requirements of complex turning and spindle machining
 3. Optional second tool holder to ensure high productivity turning/milling compound machining
 4. High precision and high temperature stability
