

Machine Name : CNC cylindrical grinder

Brand : KARATSU

Machine Model : IRON WORKS NIPPON

Stock No. : 86245

Ex-factory Date : To be added

Main Technical Parameters:

Maximum distance between the two centers: 3500mm

Rotating diameter of Worktable: $\phi 670\text{mm}$

Distance between centers between workpiece center and sand wheel shaft: 370-770mm

Working parameters of grinding wheel diameters of different sizes:

grinding wheel (grinding wheel size = $\phi 915\text{mm}$) Maximum workpiece diameter: $\phi 610\text{mm}$

grinding wheel (grinding wheel size = $\phi 760\text{mm}$) Maximum workpiece diameter: $\phi 670\text{mm}$

grinding wheel (grinding wheel size = $\phi 450\text{mm}$) The minimum workpiece diameter that can be ground: $\phi 290\text{mm}$
