

Machine Name : CNC horizontal gear hobbing machine

Brand : HAMAI

Machine Model : N60

Stock No. : 87443

Ex-factory Date : 2010

Main Technical Parameters:

CNC CNC System: FANUC

Maximum external diameter for cutting: 60mm

Maximum cutting length: 150mm

Maximum cutting module: 2.0M

Maximum machining number of teeth (maximum indexing) : 3-999Z

Installable hob Tools (diameter * height) : $\Phi 50 \times 50$ mm

Standard hob shaft diameter: $\Phi 13$ mm

The maximum rotational speed of the hob shaft (grinding wheel rotational speed) : 200mm-5000mm

The maximum rotational speed of the workpiece spindle: 1000rpm
