Machine Name : CNC horizontal gear hobbing machine

Brand : HAMAI

Machine Model : N80

Stock No. : 87444

Ex-factory Date : 2010

Main Technical Parameters:

CNC CNC System: FANUC SEREINes 31i-MODEL A

Maximum external diameter for cutting: 80mm

Maximum cutting length: 220mm

Maximum cutting module: 3.0M

Maximum machining number of teeth (maximum indexing) : 3-999Z

Installable hob Tools (diameter * height) : Φ80*120mm

The maximum rotational speed of the hob shaft (grinding wheel rotational speed) : 200mm-5000mm

Standard hob shaft diameter: Φ16mm

The maximum rotational speed of the workpiece spindle: 500Rpm

PamtonSchnell
