

Machine Name : WEDM cutting

Brand : CHMER

Machine Model : AW6E

Stock No. : 65785

Ex-factory Date : 2021

Main Technical Parameters:

High-speed threading capability within 8 seconds

Supports tension control for 0.1mm wire diameter

The functions of threading wires through broken points and segment differences

Independently developed a 32-bit smart controller

It is equipped with a suspended rotating panel and a touch LCD screen

Supports USB transmission and remote monitoring functions

machine can be managed in real time via PC or mobile phone
