

Machine Name : rigidity tester

Brand : ASKER

Machine Model : DD2-A

Stock No. : 489563

Ex-factory Date : 2025

Main Technical Parameters:

Measurement range: 0-100 degree, minimum scale 0.2 degree.

Probe type: Conical probe

Display mode: Digital display

Overall Footage: 78*40*101mm

Weight: Approximately 505g

precision: ± 0.75 points

AppVertical machining centerble scenarios

rigidity testing appVertical machining centerble to general rubber and soft plastics.
