

Machine Name : Hardness tester

Brand : Wilson Hardness

Machine Model : 452 SVD

Stock No. : 810282

Ex-factory Date : 2011

Main Technical Parameters:

Rigidity Range

Vickers: 5 HV to 2000 HV

Knoop: 10 HK to 2000 HK

Maximum Test Load

450 kgf (Suitable for high-load rigidity testing)

Minimum Test Load

1 gf (Suitable for ultra-fine rigidity testing)

Display and Operation

Digital display

Measurement Precision

High-precision sensors, typically with a precision of $\pm 1\%$ or higher

Applicable Materials
