

Machine Name : broaching machine

Brand : NACHI

Machine Model : NBV-5-8ADHAL

Stock No. : 4811742

Ex-factory Date : 2006

Main Technical Parameters:

The rated effective broaching stroke of the spindle ram: 800 mm

The compatible broach length adjustment range: 300 mm

Rated broaching force: 5 tons (50 kN)

Broaching feed speed: 1-8 m/min (servo stepless speed regulation)

Rapid return speed of the tool holder: 2-20 m/min (high-speed servo drive)

X/Y-axis travel: 400 × 300 mm

Diameter of the central through hole of the worktable: $\phi 200$ mm
