

Machine Name : Laser cutting machine

Brand : TRUMPF

Machine Model : TRUMATIC L 3030

Stock No. : 811986

Ex-factory Date : 2006

Main Technical Parameters:

Power: 2 kW (2000 W)

Laser type: CO₂ laser

Wavelength: 10.6 μ m

Working travel (X/Y/Z): 3000 / 1500 / 115 mm

Feed travel (X/Y/Z): 3104 / 1580 / 122 mm

Maximum positioning speed (single axis): 60 m/min

Maximum simultaneous positioning speed (X/Y axes): 85 m/min

Maximum cutting thickness (mild steel): 20 mm

Maximum cutting thickness (stainless steel): 12 mm

Maximum cutting thickness (aluminum): 10 mm

Average compressed air consumption: 700 L/min
