

Machine Name : CNC turning lathe

Brand : Yungho

Machine Model : YB-25N

Stock No. : 69142

Ex-factory Date : 2023

Main Technical Parameters:

Main motor power: 1000 W (1kW / 1HP)

The maximum speed of spindle is approximately 2400 to 2880 RPM (depending on the different strap gears).

spindle taper: Mohs No. 2 (MT2)

spindle chuck capacity: Maximum clamping of ϕ 25mm bar stock

machining range and travel

Maximum Machining length: 110mm

tool holder travel

Longitudinal travel (large drag plate) : approximately 240 mm

Lateral travel (for small drag plates) : approximately 80 to 100 mm

Shape and weight

Overall dimensions: 1190 × 520 × 950 mm (length × width × height)

Overall weight: 160 kg
