

Machine Name : Honing machine

Brand : Gehring

Machine Model : PT2-600

Stock No. : 69165

Ex-factory Date : 2016

Main Technical Parameters:

machining through hole range: 68mm to 105mm (precision machining for large through holes).

spindle travel travel: 600mm (with extremely strong deep hole machining capability).

Maximum grinding depth: 450mm to 550mm.

spindle reciprocating speed: 0-30 m/min (stepless speed change).

Spindle speed: 0 to 375 rpm (low speed with high torque, suitable for heavy cutting with large hole diameters).

spindle drive power: 5.5Kw per axis (total power for both axes is 11Kw).
