

Machine Name : CNC turning lathe

Brand : KIA

Machine Model : SKT28L

Stock No. : 69187

Ex-factory Date : 2018

Main Technical Parameters:

CNC System : FANUC oi-TD

chuck : 10 inches

tools Turret positions: 12

Chain chip removal

equipped with a Tool Aligner

The maximum rotational diameter is 560 mm

The maximum rotation diameter on the bed is 560 mm

The maximum rotational diameter on the tool holder is 380 mm

The X/Z-axis travel is 200/535mm

The maximum machining length is 535mm

The maximum diameter of the machining bar stock is 65mm

The maximum speed of spindle is 3500 rpm (strap drive).

spindle nose A2-6

spindle motor power 11/7.5kW (dual-speed)

The maximum torque of spindle is approximately 135 N.m

The Fast moving rate of the X/Z axis is 20/20 m/min

The tool turret form features a hydraulic servo-driven rotary tool turret

The Tool capacity is 12 workstations
