Machine Name : Vertical lathe

Brand : Qiqihaer

Machine Model : C5116

Stock No. : 469248

Ex-factory Date : 2008

Main Technical Parameters:

The maximum machining capacity and turning diameter are 1600 mm
The diameter of Worktable is 1400 mm
Maximum workpiece height: 1200mm (standard configuration)
The maximum workpiece weight 5 to 8 tons
The power and spindle: The power of the main motor is 30 kW
The speed range of Worktable is 5 to 160 r/min
The maximum torque of Worktable is approximately 20 to 25 kN·m
