Machine Name : Vertical lathe

Brand : QiChong

Machine Model : C5116A

Stock No. : 469252

Ex-factory Date : 1966

Main Technical Parameters:

The maximum turning diameter of the machining range is 1600 mm
The diameter of Worktable is approximately 1400 mm
The maximum workpiece weight 8,000 to 10,000 kilograms (8 to 10 tons).
Power and spindle main motor power: 22kW / 30kW (three-phase asynchronous motor)
Spindle speed mechanically stepped (such as 8 to 16 gears)
Feed CNC System Feed mode Mechanical feed (screw rod and smooth screw drive)
Feed rate: Manual or mechanical automatic feed (stepless adjustment
The total weight of the equipment is approximately 35 tons
The external Footage are approximately 3500 × 2600 × 4300 meters
