Machine Name : PRESS BRAKE

Brand : AMADA

Machine Model : HM2204

Stock No. : 469318

Ex-factory Date : 2018

Main Technical Parameters:

Nominal pressure: 2200 kN (220 tons)
Worktable length: 4300mm (inner side spacing of the frame: 3760mm
Throat depth: 420mm (with excellent bending depth for large-sized workpiece)
Maximum opening height: 470mm
Slider travel: 200mm
Rear stopper travel: Usually 600 to 1000 mm (standard configuration)
Bending working speed: approximately 1 to 10 mm/s (hydraulic stepless speed regulation, suiWorktable for slow and precise bending of thick plates)
Fast descent speed: approximately 70 to 100 mm/s (rapid descent without load)
Overall weight: 18,000 kg (18 tons in weight, with extremely strong bed rigidity)

PamtonSchnell
