Machine Name : turret punch press W/tooling

Brand : MURATEC

Machine Model : M2048TE

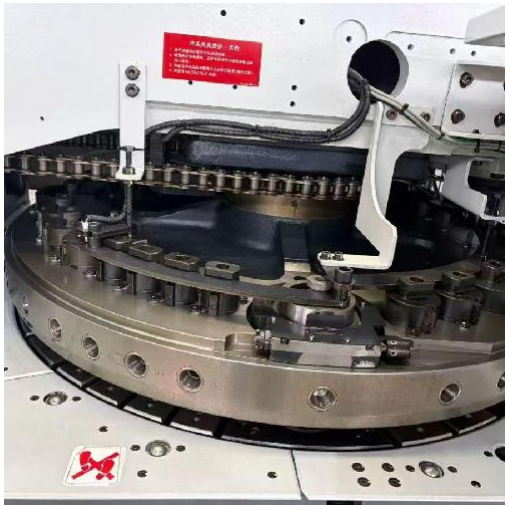

Stock No. : 469356

Ex-factory Date : 2020

Main Technical Parameters:

The self-weight of the equipment: 12,000 kg
Type: Servo CNC turret punch press
Nominal force of stamping: 200kN (20 tons)
CNC System: Murata's self-developed MOS CNC System
Maximum punching frequency: approximately 900 times per minute
machining sheet size: 1250×2500mm (standard)
Mold station: 46 stations
Drive mode: Direct drive by actuating motor

PamtonSchnell
